Imran Kaleem

Audiovisual Technician

audiovisual-technician@example.test · Dubai, UAE

Event delivery

42 breakout sessions — Prepared matching audio, video and remote-participation presets for a three-day event.

18 room checks — Logged source, level and remote-return tests before release to stage managers.

Two spare paths — Rehearsed a planned switch for speaker laptops and video playback before show call.

Summary

Audiovisual technician supporting conferences, hybrid sessions and installed meeting rooms. Builds clear signal paths, tests room handoffs and gives producers concise cues they can use during a live programme. Handles event faults through staged tests and escalation that keeps presenters informed.

Experience

Audiovisual Technician

Crescent Stage Technical

2022-02 – Present

- Supported 42 breakout sessions across a three-day conference. Prepared matching room presets and confirmed speaker laptops, microphones and remote audio during each handover.
- Logged 18 room checks before programme release. Recorded projector source, microphone levels and return audio, then escalated unresolved network behaviour to the venue team.
- Built two spare paths for speaker laptops and video playback. Rehearsed switch timing with the show caller and labelled patch changes so the next technician could return to the live configuration.
- Compared recorded audio and video to isolate a handoff delay. Logged the working configuration with the producer.

Junior AV Technician

Oriel Meeting Systems

2019-07 – 2022-01

- Installed and labelled patch points against the venue drawings. Checked simple signal continuity and helped trace intermittent sources before commissioning.
- Prepared room kits for visiting technicians. Reconciled missing or damaged equipment against the venue inventory after each booking.
- Operated playback and microphones for smaller events. Confirmed presenter cues and recorded special input requirements for the next shift.

Education

Diploma in Audio and Video Technology

Aster Media Institute

2019

Skills

Audio signal routing · Video switching · Hybrid conferencing · Patch documentation · Live cueing · Fault isolation

Projects

Hybrid breakout show file

2024

Room map, cue sheet, input labels and fallback notes for visiting technicians.
