Bethany Clara Winters

Dental Laboratory Technician · Fixed Restorations

dental-laboratory-technician@example.test · Calgary, Canada

Education

Diploma in Dental Technology

Wren Valley Applied Health Institute

2019

Summary

Dental laboratory technician producing fixed restorations from clinical prescriptions. Documents fit checks and shade choices for the case reviewer and refers incomplete prescriptions to the clinic.

Experience

Fixed Restorations Technician

Prairie Lantern Dental Laboratory

2022-02 – Present

- Completed 64 single-unit crowns in a month and documented contact and margin checks before the reviewer released each case.
- Introduced a photograph and shade checklist at intake. Cases returned for clarification fell from 14 to six across comparable monthly batches.
- Reconciled milling identifiers to the case record and quarantined work when the material label did not match the prescription.

Dental Laboratory Assistant

Foothill Gleam Dental Lab

2019-08 – 2022-01

- Prepared models and organised case records for technicians working on fixed restorations.
- Logged remake reasons and delivered weekly summaries for review without identifying patients.

Skills

Fixed restorations · Dental CAD/CAM · Shade documentation · Case traceability
