Maya Kaur Te Rangi

Diagnostic Medical Sonographer

diagnostic-medical-sonographer@example.test · Wellington, New Zealand

Summary

General sonographer with hospital and community imaging experience. Works to approved protocols and records acquisition limits. Sends images and observations to the reporting clinician with enough context to support follow-up.

Experience

2022-04 – Present **Diagnostic Medical Sonographer**
Rimu Quay Imaging

- Performed adult abdominal and small-parts examinations on hospital and outpatient lists. Documented technical limitations and escalated urgent observations under the imaging service's protocol.
- Tracked repeat imaging requests due to incomplete acquisitions. Requests fell from 11 to 5 per 120 comparable booked examinations after a checklist trial and feedback from the reporting team.
- Coordinated the final handover for late urgent examinations, recording the receiving clinician and time when a call was required.

2019-03 – 2022-03 **Sonographer**
Kowhai Reach Community Diagnostics

- Checked clinical indications before appointments and discussed unclear requests with supervisors. Recorded rescheduling reasons for the booking team.
- Prepared 24 anonymised cases for peer review. Matched notes to the approved image series and collated feedback for the modality lead.

Education

2019 **Postgraduate Diploma in Medical Ultrasound**
Harbour Ridge Institute of Health
