Sameer Bhandari

Elevator Installation Technician

elevator-installer@example.test · Doha, Qatar

Installation evidence

12 traction lifts — Installed assigned mechanical assemblies and supported pre-test checks.

31 door openings — Checked readiness against the issued dimension sheet.

19 incomplete checks — Separated repeatable work from issues requiring contractor action.

Summary

Elevator installation technician working on traction lifts in occupied and newly built properties. Reads equipment drawings, checks shaft and door readiness, installs assigned assemblies and prepares commissioning records for the supervisor.

Experience

Elevator Installation Technician

Gulf Meridian Lift Systems

2021-11 – Present

- Worked on 12 traction lifts across two apartment blocks. Installed guide rails and door assemblies against issued drawings and recorded deviations for the lead installer.
- Checked 31 door openings against agreed dimensions. Marked out-of-tolerance openings by floor and returned the affected work to the builder before installation.
- Reconciled 19 incomplete checks during pre-test handover. Attached exclusion reasons with locations and prepared evidence for the supervisor and independent inspection team.
- Trialled numbered hardware bins for door installation. Compared issued stock with installed sets at shift end and flagged missing components before work resumed.

Lift Installation Assistant

Ternway Vertical Transport

2018-04 – 2021-10

- Checked delivery lots against equipment schedules and labelled parts by shaft and floor, keeping damaged parts separate for the supervisor.
- Assisted with bracket positioning and door assembly under supervision. Recorded as-found discrepancies with photographs and revised setting-out notes.
- Prepared sign-off packs with completed task cards and open items. The authorised technician conducted performance testing and final acceptance.

Education

Diploma in Electromechanical Technology

Valley Forge Technical Institute

2018
