Nolan André Fraser

Millwright · Process Equipment

millwright@example.test · Hamilton, Canada

Experience

2021-10 – Present **Millwright**
Evercreek Process Services

- Installed three conveyor drive assemblies during a weekend shutdown. Recorded alignment results and left release decisions to the site lead.
- Traced repeated coupling wear to an alignment issue on a transfer pump. Logged baseline readings and checked the result during the agreed trial window.
- Updated bearing inspection records with condition readings to help planners prioritise the next outage.

2018-05 – 2021-09 **Apprentice Millwright**
Lakeshore Mechanical Guild

- Measured installed clearances and marked shim locations for review before equipment was secured.
- Reconciled spare parts against the work order so returning crews had the correct fittings and seals.

Summary

Millwright installing and maintaining process conveyors, pumps and drive assemblies. Plans mechanical handovers with the electrical and production teams during planned outages.

Education

2021 **Industrial Mechanic Apprenticeship**
West Lakes Trades Institute
