Isaiah Nolan Pierce

Rail Yardmaster · Freight Terminal Operations

rail-yardmaster@example.test · Winnipeg, Canada

Terminal operations

Five yard tracks — Planned track use across regular inbound and outbound freight blocks.

17 to 9 holds — Documentation holds across successive 50-departure samples.

Summary

Rail yardmaster coordinating yard crews and freight departures at an intermodal terminal. Checks capacity, crew availability and equipment status at shift change. Resolves schedule conflicts with dispatch and records safety-related delays without reclassifying them.

Experience

Rail Yardmaster

Prairie Ribbon Freight

2020-10 – Present

- Coordinated crews, equipment and track availability for two daily departure windows. Confirmed changes with dispatch before updating the terminal plan.
- Standardised handover checks with the documentation team. Departures held for missing paperwork fell from 17 to 9 across successive 50-departure samples.
- Replanned staging around booked maintenance. Kept affected freight customers informed through the terminal service desk.

Freight Conductor

Iron Tamarack Rail

2015-08 – 2020-09

- Checked consist records and reported discrepancies to yard control before the departure handover.
- Briefed relief crews on equipment exceptions, load restrictions and outstanding documentation at shift change.

Education

Diploma in Rail Operations

Keewin Technical College

2015
