Projects

Stamping tool repair records

2025

Set a consistent inspection record for eight stamping dies. Attached a last-piece sample and dimensional results to each job card for production review.

Summary

Tool and die maker building and repairing small stamping tools. Records dimensional checks for tool-room handover and works with quality inspectors during trial runs.

Experience

Tool and Die Maker

Eichenmark Forming Works

2021-07 – Present

- Fitted replacement punch inserts and checked alignment to drawing datums before production trial runs.
- Investigated a burr defect on two recurring part numbers. Adjusted worn guiding components and recorded first-piece measurements for quality review.
- Maintained gauge and tooling records so shift teams could distinguish a repaired die from a tool awaiting inspection.

Apprentice Toolmaker

Falkenbogen Precision Tools

2017-09 – 2021-06

- Machined basic inserts to drawing dimensions and checked surface finish with the assigned toolmaker.
- Prepared die components for inspection, recording actual measurements and drawing revisions on job cards.

Skills

Press tooling · Dimensional inspection · Surface grinding · Drawing interpretation
